

FAST-PAK CAST IRON

MODEL RD-1 CAST IRON DRAIN

The **NEW** Fast Pak Cast Iron drain allows for quick and easy installation from the deck, eliminating the need for underside installation via the underdeck clamp. It is adaptable to most generic materials of single ply and conventional built-up roofing for use with roof decks of steel, wood, precast concrete or gypsum.

This drain offers versatility and easy installation on new and existing roofs. Available in sizes 3" and 4".

FEATURES:

- Molded polyethylene dome strainer. Bolts securely to clamping ring
- Galvanized extension/bearing flange allows for easy installation from the rooftop
- Epoxy coated cast iron body. No hub outlet
- Epoxy coated aluminum clamping ring with gravel stop. Grooved for positive drainage on smooth surfaced roofs. Distortion resistant and unbreakable.
- Flexible expansion coupling. Connects to PVC or cast iron pipe.
- Overflow option available

TYPICAL 4" FAST-PAK CAST IRON DRAIN WITH FLEXIBLE EXPANSION COUPLING

The **NEW** Fast Pak Cast Iron roof drain kits are ideal for quick, simple drain installations in ponded roof areas and for many other applications where it is desirable to secure the drain to the roof deck construction.
